

HOLMBERG SAFETY RECOGNITION!

CONSTRUCTION

SHARING YOUR VISION. BUILDING SUCCESS.

April 2016

Re: **B-2 Expansion Delta Sky Club Project
Safety Sub of the Month – April 2016
5730180**

Dear Holmberg,

PCL has recently rolled out a safety recognition program that we refer to as the “Safety Sub of the Month” program. Its purpose is to formally show PCL’s appreciation for providing exceptional day-to-day safety performance for our workforce, for our projects and for our clients during a given month.

For the month of April 2016, PCL Construction would like to recognize Holmberg Mechanical as the “Safety Sub of the Month” on the B-2 Expansion Delta Sky Club project. Holmberg Mechanical displayed high quality safety efforts throughout April by:

- Participating in the weekly safety committee meetings and safety walks with POS safety.
- Producing daily quality pre-task planning utilizing PCL’s Pre-Job Safety Instructions (PSI’s);
- Completion of the Mechanical AHU’s Crane Pick Plan, thorough Job Hazard Analysis and Detailed Site Specific Fall Protection Plan. The review of these plans was conducted before the work began with a healthy discussion of the step by step procedures.

The effective blending of Holmberg Mechanical’s safety culture with PCL’s has produced a high level of safety excellence and has immeasurably contributed to the B-2 Expansion Delta Sky Club project achieving 116 days without a recordable injury as of the end of April. It is only with the help of outstanding trade contractors such as Holmberg Mechanical that PCL can achieve its project safety goals.

We look forward to working side-by-side with you to be that positive safety influence on the project and achieve our respective safety goals, and would like to once again thank you for your efforts.

Sincerely,

PCL Construction Services, Inc.

Tony Reichstein
Project Manager

Mike Williams
Project Superintendent

Congrats Delta Sky Club crew for receiving the **SAFETY SUB OF THE MONTH** for the **SECOND** time during this project!
